Amgen Biotech Experience

Scientific Discovery for the Classroom

Ireland

Systems Biology Ireland (University College Dublin) and Biomedical Diagnostics Institute (Dublin City University) are offering secondary school science and biology teachers a unique opportunity to participate in the Amgen Biotech Experience, Ireland.

This innovative programme provides teachers with

- hands-on laboratory experience
- teaching materials relevant to new Biology syllabus
- access to professional grade scientific equipment.

Our single-day workshops will take place on

Saturday, 3rd October at UCD, 10 am to 4 pm

Wednesday evening, 7th October at UCD, 5.30 pm to 9.30 pm

Saturday, 10th October at DCU, 10 am to 4 pm

Thursday evening, 15th October at DCU, 5.30 pm to 9.30 pm

Contact us using the link below.

ENGAGE
EXPLORE
EXPLAIN
EXTEND
EVALUATE

During the course, you will practice current molecular biology techniques, including microvolumetric pipetting and gel electrophoresis.

You will then have the opportunity to borrow the professional laboratory equipment for use in your own classrooms.

To register, please **click here** or contact us at ABE-Ireland@ucd.ie for further information.
