

SCHOOLS CHEMISTRY NEWSLETTER PRIZE 2013/14

First Prize: €400

sponsored by

**The Institute of Chemistry
of Ireland**

Irish Chemical News, the Journal of
The Institute of Chemistry of Ireland,
may consider publishing articles from
the winning newsletter.

**Extracts may also be circulated
with *Chemistry in Action*.**

Second Prize: €300

sponsored by

The Society of Chemical Industry

The competition is also supported by
**The Irish Science Teachers'
Association**

Tip

Although not essential, it is suggested that a survey to compare the perceptions of chemistry of your classmates and/or friends could be carried out, and the results included as part of your newsletter.

This competition is open to all second level students, including transition year students, interested in Chemistry (both North and South).

Students, working in Teams of ideally 2 to 4, should submit a Newsletter on the theme **“Teenagers’ Perceptions of Chemistry”** suitable for the non-scientist, outlining clearly and accurately any aspects of chemistry in Ireland in an engaging, informative and easily readable manner.

The entrants are strongly encouraged to use good quality graphics/photographs to illustrate their newsletter. Sources of information should be cited.

The Institute of Chemistry of Ireland will nominate the adjudicating panel. Strict adherence to the guidelines will be taken into account when assessing each newsletter.

Teams must indicate in their Newsletter: the names of the team members and their teacher, the contact details of the team leader or their teacher, and the school they are attending.

Four printed copies of the Newsletter (each consisting of 4 single-sided A4-sized pages) and one Microsoft Word electronic attachment should be sent as follows:

**Submit the printed Newsletters to:
The Institute of Chemistry of Ireland,
PO Box 9322, Cardiff Lane, Dublin 2.**

Submit the electronic Microsoft Word copy to: info@instituteofchemistry.org

**The closing date is
Friday, 20th December, 2013**
