Science and Technology Education

November 1-5, 2016

Titanic Beach Lara Hotel / ANTALYA / TURKEY

www.icase2016.org

Suggested arrival date: 31 October 2016

The International Council of Associations for Science Education (ICASE) was established in 1973 to extend and improve science education for children and young people throughout the world. Today, ICASE is a vast network of science teacher associations, institutions, foundations and companies, working together to promote science and technology education around the world. ICASE facilitates communication and cooperation at national, regional, and international levels.

Throughout the world, people and societies in which they live are profoundly influenced by science and technology. The improvement of quality of life and the achievement of sustainable development places a high demand for scientific and technological literacy on all citizens. ICASE has worked with member organizations in over 75 countries to support science educators in their important role of developing such literacy.

We are looking forward to seeing educators, teachers, researchers, and policy makers from around the world at the WorldSTE 2016, in Antalya.

Kind regards,

ICASE Executive Committee & WorldSTE 2016 Organizing Committee

The theme of the ICASE World STE Conference:

Interdisciplinary Practices in Science and Technology Education

Strands for the ICASE 2016 World STE Conference:

- Science and technology teachers and STA role in promoting 21 century skills
- Impacts of national and international projects on classroom practices and science teachers experiences from project such as EU or NSF-funded projects
- Science teaching and learning: Teaching resources developed and tested by teachers
- Science learning in informal contexts such as science centers and museums
- Curriculum Development, Evaluation, and Assessment
- Innovation & Entrepreneurship in Science and Technology Education
- Environmental Education
- Information and communication technologies in science education

WorldSTE is the official conference of ICASE.
