

Northern Ireland Science Park Festival of Innovation

Fri 28th Sept 2012, Titanic Building, Belfast, 13:00 - 14:30

Did you know a company from NI is integral in producing this:

...or this?

Norman Apsley, CEO, Northern Ireland Science Park would like to invite teachers and up to three 6th Form students to browse the exhibitions at the Festival of Innovation.

Northern Ireland has a wealth of innovation and entrepreneurship in its history and in its present day. Northern Ireland Science Park is celebrating these innovations with a two-day showcase of the emerging technologies from the research base, and the established world-class companies.

The exhibition will include leading Ulster companies within Medical Devices, Financial software and Advanced Manufacturing and Engineering, to highlight the somewhat hidden innovations already lifting Northern Ireland into the 21st Century world of manufacturing.

If you are interested in attending please contact Roisin Clancy by Mon 24th Sept:
