

ECO-UNESCO EPV Accredited Training for Primary School Teachers

Junior ECO-Watchers Training Course

3rd/6th Class Primary Geography Curriculum

What?

This one-week course will equip primary school teachers with the knowledge, skills and inspiration to carry out practical, hands-on and ready made environmental education activities related to Energy & Climate Change, Waste, Water, Biodiversity and Outdoor education. The course will also give an introduction to Environmental Action Projects. ECO-UNESCO's approach is learner/child centered.

The course covers the following topics:

Day 1: Energy and Climate Watchers

Day 2: Waste Watchers

Day 3: Wild Watchers

Day 4: Water Watchers

Day 5: Eco Literacy and Action Planning

This course is also suitable for secondary school teachers, youth workers, and educators.
