Strategies for introducing and developing difficult topics in Leaving Certificate Chemistry

This course will cover strategies for teaching difficult topics in chemistry. The workshop will focus on a number of topics including a look at how **Chemical Equilibrium** may be presented as a complete package using inexpensive equipment and exciting resources. The night will also include a review of suggestions from the Chief Examiners report in Chemistry.

Teachers will explore strategies, activities, worksheets, animations, videos and resources that will aid them in the presentation of these concepts and in the engagement of students.

Experienced teachers will give advice on developing a **Transition Year Chemistry** module.

Finally the course will explore the various features of **PowerPoint** to enhance the presentation of chemistry topics.

***Designation of hours under the Croke Park Agreement is at the discretion of School Management (DES CL 25/2011 and CL 43/2014). A conformation of attendance will be available**

Date	Time	Venue
