Chemistry Refreshers Day

This course is for teachers of chemistry who are new to the profession or new to the revised chemistry syllabus. It focuses on good classroom teaching and learning practices as well as giving participants a hands-on experience to master the skills required in carrying out a number of the mandatory experiments.

Organic practicals are included with the emphasis on safety and following the correct procedures as outlined in the Mandatory Experiment CD. Teachers will get an opportunity to set up and prepare organic compounds including the preparation of Benzoic acid.

Safety tips, techniques and exam questions related to the experiments will also be covered. The Mandatory CD will be available on the day. Bring your lab coats and be prepared to get your hands wet.

A brief overview of the course will be given with special emphasis on the examination paper and how it is marked. Teaching resources will be distributed so bring along a memory stick.

Date	Time	Venue
5th December 2015	9.30 am to 4.00 pm	EurekaLab in University College Cork

Registration:
