

Chemistry Spring Workshop 2014

Practical Advice and Tips for the Chemistry Teacher

This workshop is for teachers of Chemistry

This workshop will provide teachers with advice on the following:

1. Updates on the current Leaving Certificate Syllabus including trialed and tested procedures for the newly included mandatory experiments
2. Laboratory preparation ~ Advice on how to best prepare the laboratory for the new school year.
3. Health & Safety and storage of Chemicals in the school laboratory (Including information on the new hazard symbols).
4. Resources which put Chemistry into context for pupils.

New Hazard Symbols
