

## Practical workshop for Chemistry Teachers

If you are recently qualified or just starting out as a chemistry teacher then this course is for you. The course will be held in March/April in four venues around the country. See Chemistry Support website [www.pdst.ie](http://www.pdst.ie) for details of the dates and schools participating in this course. Experienced teachers will demonstrate

and explain all aspects of the following procedures: making up solutions, safety issues relating to making up solutions, dilutions, storage of chemicals, recipes for solutions, redox titrations. Teachers will have an opportunity to practice these procedures **and to try out the new Mandatory experiment: Preparation of Benzoic acid**. So bring your lab coats and be prepared to get your hands wet.

Course Venue	Course Date	Time
Eureka Lab. U.C.C	Thursday 20 <sup>th</sup> of March 2014	7.00pm – 9.00pm
St Columba's, Dublin	Wednesday 26 <sup>th</sup> of March 2014	7.00pm – 9.00pm
Ard Scoil Rís, Limerick	Tuesday 8 <sup>th</sup> of April 2014	7.00pm – 9.00pm

To reserve a place on this course visit: <http://goo.gl/JxUXY8>

**NOTE:** A laboratory session demonstrating all the added and changed mandatory experiments in Chemistry will also run at the Irish Science Teachers Association (ISTA) annual conference in Galway on Saturday April the 12<sup>th</sup>. You do not need to reserve a place at this workshop.
