

Junior Cert Science

Practical activities to enhance numeracy and thinking skills in Junior science

This workshop will identify, enhance and apply numeracy moments in science by:

- Bridging the gap between science and project maths for graphing through activities
- Providing resources for alternative teaching approaches to chemical bonding and chemical equations
- Providing alternative approaches to selected junior science topics to enhance thinking skills.

A selection of activities will be available for you to try on the night.

All courses take place from 7pm -9pm

Date	Education Centre	Date	Education
27/02/2014	Drumcondra	05/03/2014	Cork
27/02/2014	Galway	05/03/2014	Donegal
