

RSC | Advancing the Chemical Sciences

**Are you getting involved in the BT Young Scientist
and Technology Exhibition this year?**

**If so be in with a chance to win up to €200 euro to
help you win your prize!!**

Does your idea relate to Analytical Science?

Analytical science is the science of detection and measurement. We see analytical science every day, from the tests performed to check the purity of medicines and food, to drug testing of professional athletes, to forensic analysis.

Bursaries will be awarded by the Royal Society of Chemistry Analytical Division (Republic of Ireland Sub-Region) to students who can demonstrate that they are pursuing a project in Analytical Sciences that is being entered into the BT Young Scientist and Technology Exhibition. The 200 euro can go towards anything to do with the competition – project demo materials, chemicals, printing costs, travel to and from the exhibition.

**DEADLINE:
30th September 2013**

**FOR MORE INFORMATION AND TO REQUEST AN
APPLICATION FORM, CONTACT:
Dr. Aoife Morrin, School of Chemical Sciences,
Dublin City University
