

SciFest 2012

For details of Exhibition Dates and Contacts
See website www.scifest.ie

The SciFest project was set up to encourage a love of science through active, collaborative, inquiry-based learning and to provide a forum for second-level students at local/regional level to present and display their scientific investigations. It is only four years since SciFest was launched nationwide but in that period more than 9148 students have exhibited and presented their STEM projects at the Institutes of Technology all over Ireland.

The closing date for receipt of entry forms to SciFest is 2 March 2012
