

Discover the Mathematics & Science used in today's careers

A poster competition to discover the reality behind real careers – this competition is for Junior Cycle 1st and 2nd year students to explore a career of their choice and present their findings on a poster (or a powerpoint slide) for a chance to win super prizes – with amazing Apple iPads, iTouchs and iPods all up for grabs! They will tell us how important and relevant Science or Mathematics are for the work (just about all careers need some science or mathematics!) in their chosen career.

Details of the competition and entry forms can be downloaded at

<http://www.careersportal.ie/smartcareers/>

The Smart Career Competition is running in collaboration with the NCE-MSTL, CareersPortal.ie, DSE and Scifest and the closing date for entry forms is **March 9th 2011**. The competition final awards ceremony will be held in the Limerick Institute of Technology Scifest on Tuesday April 5th, 2011 and in Intel, Leixlip on Tuesday April 12th, 2011.
