

Are you a digital creator?

Join the Smart Futures
ICT careers campaign!

Smart Futures is a national competition open to all second level students in Ireland, inviting you to create a piece of digital content reflecting the theme 'Smart Futures'.

SMART FUTURES

There are eight categories including best video, music, animation, podcast, game, mobile app and tech article. There are great prizes on offer, including Xbox, HP Photosmart Printer, iPad, cameras and even company placements!

The Smart Futures online careers fair will take place from 23-27 January where companies will answer live questions from students and guidance counsellors about working in information communications and technology. The website www.SmartFutures.ie and competition will be launched on 12th December 2011 with full details and lots of careers videos and resources.
