

## **Work in CRANN for the Summer**

CRANN is offering a work placement for a Science Teacher this Summer. This is a unique opportunity to spend 6 weeks in the beautiful surroundings of Trinity College's Leading Research Institute and learn more about nanoscience in this world-class facility.

You will be developing materials for Transition Year classes, based on our new DVD, "Nano in My Life". The content that you develop with us will be professionally designed and available for download from September 2011 for teachers nationwide.

You do not need a great knowledge of nanoscience – enthusiasm, creativity, good research and writing skills are essential.

If you are interested in working with us or to discuss informally, please contact Mary Colclough, Communications and Outreach Manager in CRANN: [colcloum@tcd.ie](mailto:colcloum@tcd.ie); telephone: 01-8963022. Closing date for applications – Friday 3<sup>rd</sup> June.
