## Learn how to create:

### Your own free website.

Easily create a classroom or school website and blog with a variety of multimedia features. Web 2.0 tools included.

### Digital storytelling

Using software to create and edit movies and slideshows from photos, music and videos in your classroom.

### Resources as a teaching tool

Create innovative resources such as flash cards, keywords, wikis, quizlets for literacy, numeracy, mind mapping etc. Be able to convert files easily into suitable formats to a variety of useful multimedia formats.

### Scratch for beginners

Design interactive stories, animations, using a simple computer programme. Students can learn to think creatively, reason systematically and work collaboratively.

**The course will be delivered over 4 days.**

**Monday to Thursday from 10am to 1pm.**

**Dates: 2nd July – 5th July  
20th Aug – 23rd Aug**

Cost: €40 per module.

Full course: €120
