

# Crime Scenes in the Classroom:

a method for teaching observation and inquiry skills

**CRIME SCENE — DO NOT CROSS — CRIME SCENE — DO NOT CROSS**

## A Workshop for Second-Level Science Teachers

**Limerick Institute of Technology**

Saturday 7 November 2009

Contact: Marie Walsh

[Marie.Walsh@lit.ie](mailto:Marie.Walsh@lit.ie)

**Institute of Technology Tallaght**

Saturday 14 November 2009

Contact: Mark Glynn [mark.glynn@iotti.ie](mailto:mark.glynn@iotti.ie)

**University College Cork**

Saturday 21 November 2009

Contact: Declan Kennedy [d.kennedy@ucc.ie](mailto:d.kennedy@ucc.ie)

all are 9:00 am - 4:00 pm

\*Facilitated by forensic scientists and classroom teachers from Ireland and abroad

\*Mock crime scenes for observation and evidence collecting

\*A series of lessons from different areas of the Irish curriculum using a forensics approach to get students thinking and applying their science will be presented by Alison Graham and Paul Redmond

\*Try-it-yourself activities

Guest Lecturer

Bob O'Brien

Connecticut Forensic Laboratory, USA

*Introduction to Crime Scene Processing*

Details of the timetable for the specific programmes in each venue are given on the ISTA website ([www.ista.ie](http://www.ista.ie)) and on the Second Level Support Website ([www.slss.ie](http://www.slss.ie))

*The assistance of the Second Level Support Service (SLSS) Maths and Sciences Group is greatly appreciated with these workshops*
